SKILLS

Technical Skills

Java, C++

Object-Oriented Programming

MySQL, SQL

HTML, CSS, JavaScript

Desktop Application Development

Tools & Technologies

Git, GitHub

AWS (basic)

Figma

VS Code

Soft Skills

Problem Solving

Teamwork

Communication

Adaptability

LANGUAGES

- Portuguese(Fluent)
- English (Fluent)
- Japanese (Basic)

ABOUT

Entry-level Software Engineer graduated in 2024, currently based in Japan, with hands-on experience gained through academic and personal full-stack projects. Developed a complete desktop application using Java and MySQL, implementing authentication, business rules, and database management. Strong foundation in back-end development, databases, and front-end technologies.

PROJECTS

Hotel Management System - Final Graduation Project

Java | MySQL | Desktop Application

- Designed and developed a complete desktop-based hotel management system from scratch.
- Implemented user authentication (login system) and role-based access control.
- Developed core features including guest, room, and employee management.
- Implemented check-in and check-out workflows with business rules and data validation.
- Designed and managed the MySQL database schema, including tables, relationships, and SQL queries.
- Applied object-oriented programming principles and basic software architecture concepts.

Responsive Websites — Personal Projects

HTML | CSS | JavaScript | Bootstrap

- Built responsive websites from scratch using semantic HTML and modern CSS.
- Implemented responsive layouts and components with Bootstrap.
- Focused on usability, clean design, and cross-device compatibility.

WORK EXPERIENCE

CONQUEST K.K. — IT Intern

(2024)

- Assisted in system maintenance and development using Pascal.
- Worked with MySQL databases, performing queries and data updates.
- Gained foundational knowledge of AWS cloud services.
-

FUJITEC COMPANY — Factory Employee

(2023–2024)

- Worked in a highly regulated manufacturing environment, following strict safety and quality standards.
- Collaborated with cross-functional teams to meet production deadlines.
- Developed strong attention to detail and process discipline.

CLOUD9 INTERNATIONAL PRESCHOOL — English Teacher

(2022–2023)

- Planned and delivered structured lessons for young learners.
- Developed strong communication and organizational skills.
- Collaborated with staff and parents in a multicultural environment.

EDUCATION

Bachelor's Degree in Software Engineering - Unigran

(2020-2024)
